

REMARKS

In the Office Action dated January 19, 2005, claims 1-3, 5 and 7-9 were rejected under 35 U.S.C. §103(a) as being unpatentable over Hu in view of Adler et al..

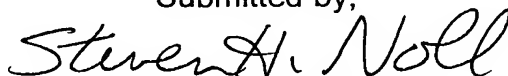

Claim 10 was allowed and claim 4 was stated to be allowable if rewritten in independent form.

By the present Amendment, the subject matter of claim 4 has been embodied in independent claim 1, and claim 4 has been cancelled. The subject matter of claim 4 also has been embodied in independent claim 7, and claim 7 is submitted to be allowable in view of the indicated allowability of the subject matter of claim 4.

As noted in Applicants' previous response, claim 10 is a combination of original claims 1 and 4, and thus does not embody the amendments that were made in claim 1 in Applicants' previous response. Claim 10, therefore, includes fewer limitations than claim 1, and therefore the dependent claims originally depending from claim 1 have now been made to depend from claim 10.

All claims of the application are therefore submitted to be in condition for allowance, and early reconsideration of the application is respectfully requested.
